LUXCINE

LUXURY PRIVATE CINEMA

Where architecture *meets cinema.*

OUR PHILOSOPHY

A cinema room is not a room.

It is an experience.

LuxuryCine was born from a simple conviction: the finest private cinemas are not installed — they are designed.

We work alongside architects and interior designers to conceive spaces where acoustic precision, visual perfection and architectural integrity exist as one seamless whole.

The technology disappears.
The experience remains.

20+	60+	100%
Years	Spaces	Bespoke

01

Bespoke Design

Every project from a blank page. Spaces crafted around your architecture.

02

Acoustic Precision

Sound is the soul of cinema. Every frequency controlled.

03

Cinematic Performance

Reference-class only. Barco laser. JBL Synthesis.

04

Invisible Technology

The greatest technology is the one you never see.

05

Architectural Integration

Cinema woven into the building's fabric from day one.

06

Turnkey Delivery

First sketch to final calibration. Zero compromise.

OUR PROCESS

From first vision *to first frame.*

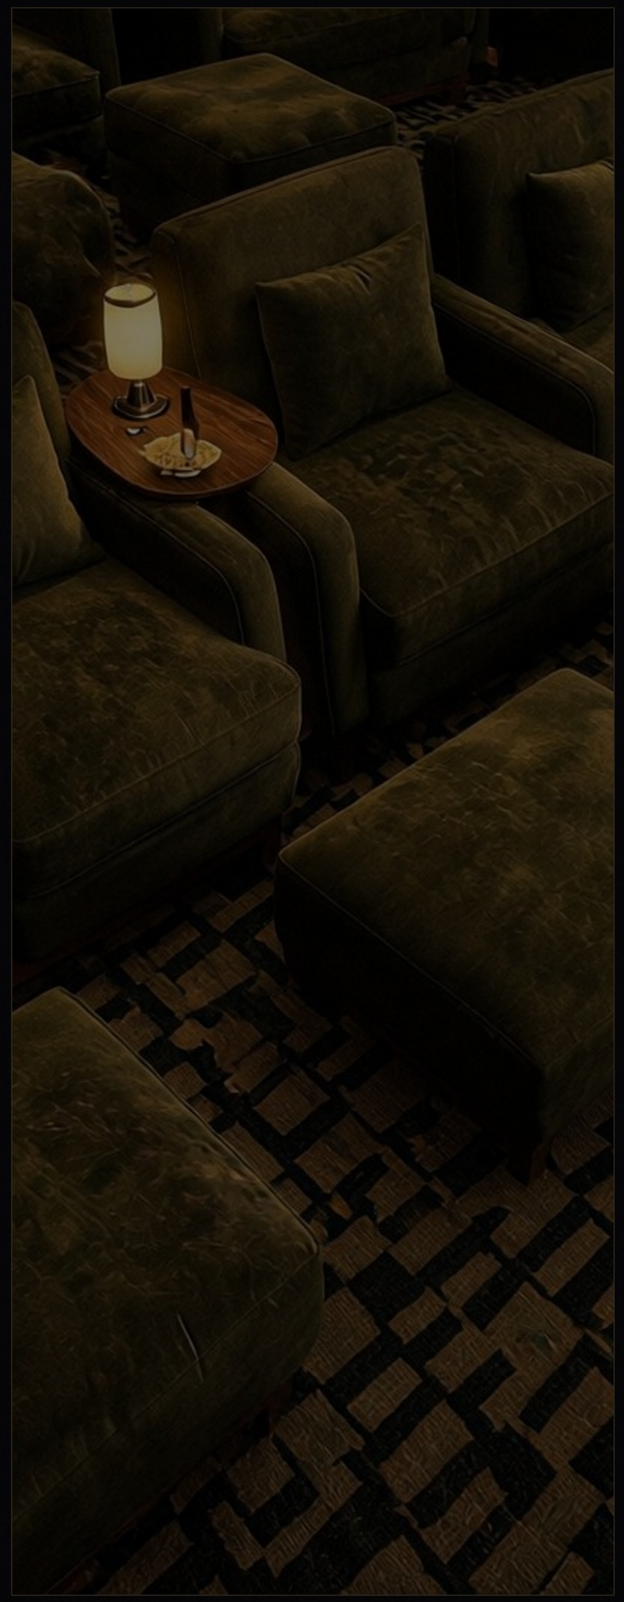
01
Discovery
Your space, aspirations, your way of experiencing cinema.

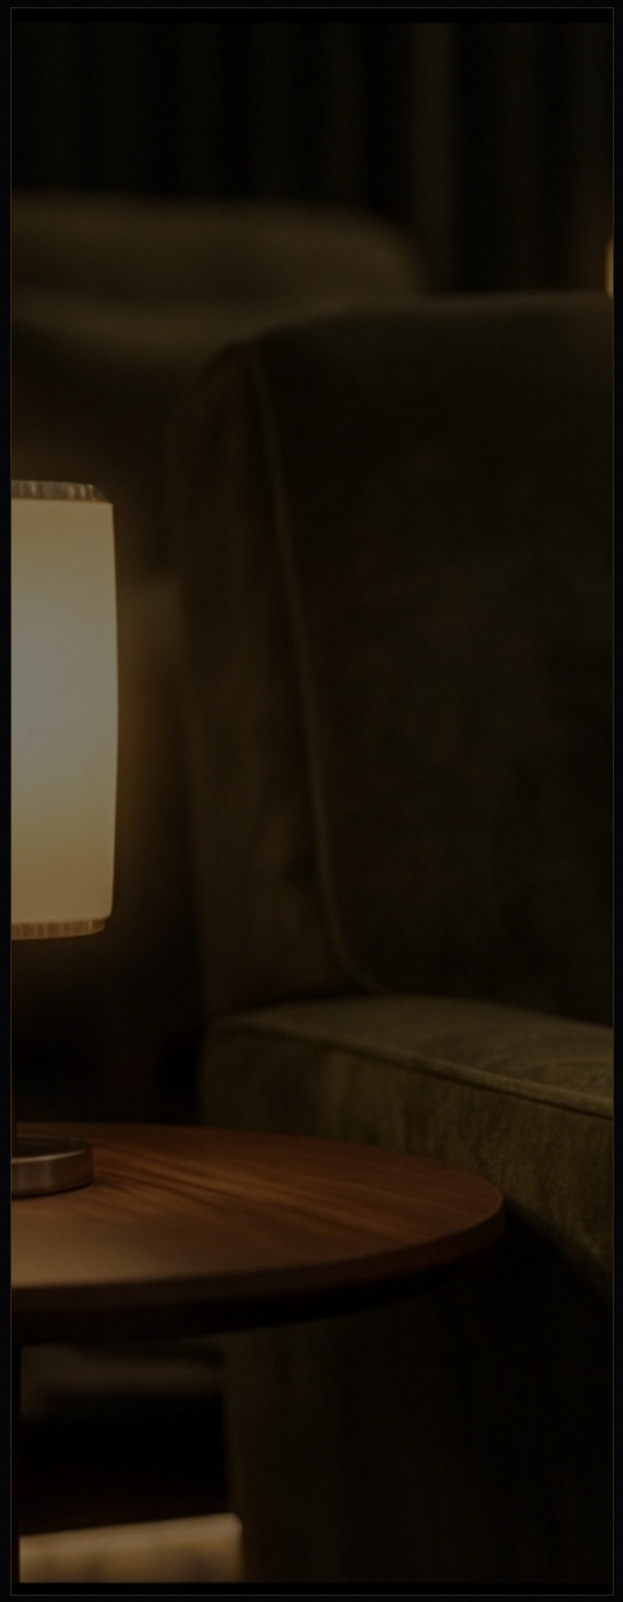
02
Concept
Acoustic modelling. Visual simulations. Material palettes.

03
Engineering
Architecture, acoustics, technology as one system.

04
Build
Precision of a watchmaker alongside your contractors.

05
Calibration
Every parameter fine-tuned beyond expectation.





The room performs before anyone sits down.

Signature Cinema

Every exceptional cinema
begins with a conversation.

Your clients deserve more than a room with a screen.
